

## Course Duration:

1 Day

## Suitable For:

This one day course is for those who have entered, or are about to enter, the construction and civil engineering industry.

After completing this 1 day course and the CITB Health and Safety Environment test, delegates can then apply for the **Green CSCS Card**.

## Course Information:

The Health & Safety Awareness course highlights potential hazards when working on site and provides practical advice on keeping yourself and your colleagues safe. It covers your individual and employer's responsibilities, including what you can do if you think anyone's health and safety is being put at risk.

The Health & Safety Awareness Course covers:

- The need to prevent accidents
- Health and safety law
- How your role fits into the control and management of the site
- Risk assessments and method statements
- Performing safely and asking for advice
- How to report unsafe acts to prevent an accident

## Course Assessment:

To complete this course, delegates must pass a multiple choice exam. The exam consists of 25 multiple choice questions, 3 of which are safety critical. Delegates are required to achieve the pass rate of 80% (20 out of 25) and **MUST** get all 3 safety critical questions correct.

## Certification:

Certification for this course is valid for 5 years. To remain certified in this area, you will need to retake the course before the expiry date.
